

Security Cage Storage Lockers – 84000 & 85000 Installation Instructions

Thank you for selecting Salsbury 84000 (24" wide) or 85000 (30" wide) security cage storage lockers. We are confident that the quality and construction of the lockers will provide you with years of maintenance-free service.

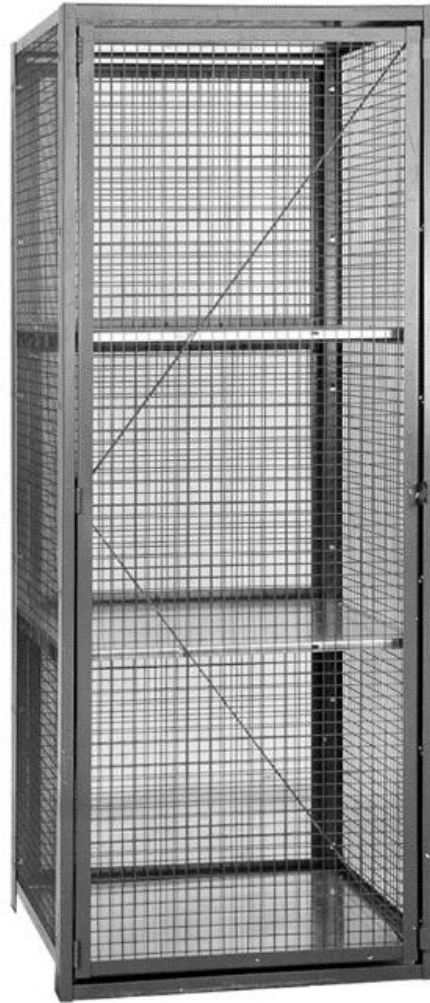

STANDARD SIZE

#84000 – 24"W x 79.5"H x 25.5"D

LARGE SIZE

#85000 – 30"W x 79.5"H x 31.5"D

Preliminary Notes

Please read the complete assembly instructions before attempting to assemble the lockers. Check the materials to ensure that they are correct for the job and that there is no damage.

Units come packaged with 40 sets (84000) or 48 sets (85000) of 1/4-20 X 3/4" long screws and corresponding serrated flange nuts. The tools required for assembling the lockers are a Phillips head screw driver and a crescent wrench. Lockers should be assembled individually as indicated in the order of the drawings. Lockers should be assembled on a level surface and installed by anchoring to the floor and/or wall as required. Different installation locations require different methods of anchoring, so anchoring hardware is not included.

Security Cage Storage Lockers – 84000 & 85000 Installation Instructions

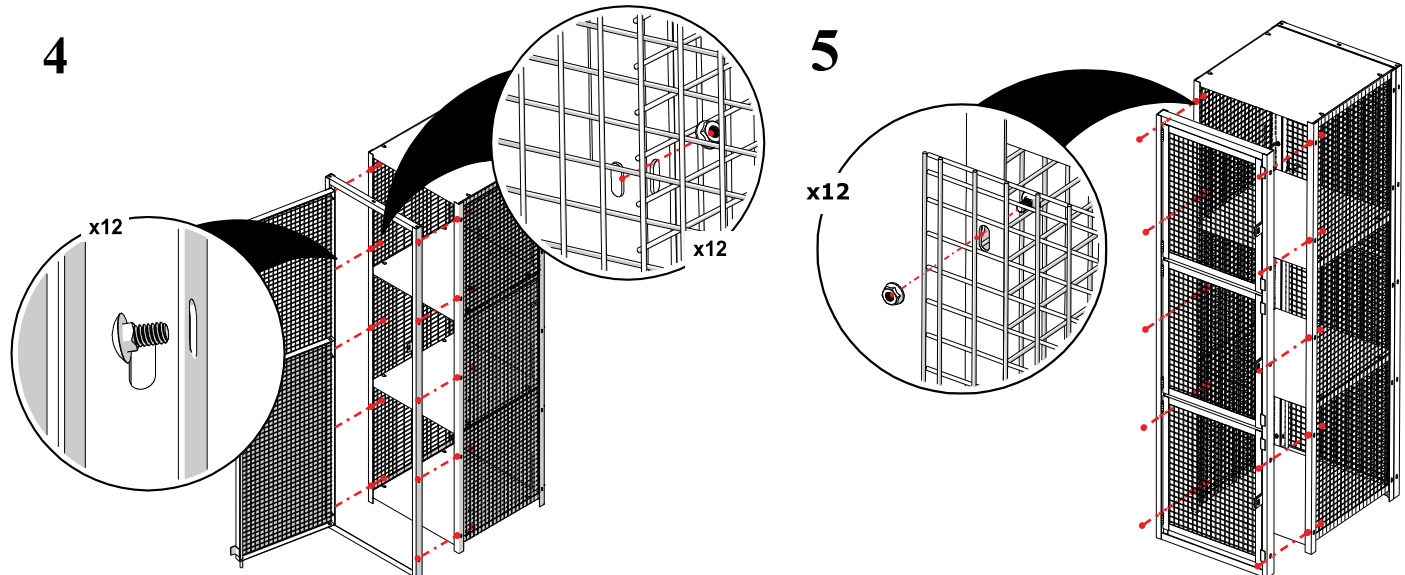

Shelves and side panels

Fasten the compartment shelves (with flanges facing down) to the shelf supports on the side panels, using 4 sets (84000) or 6 sets (85000) of screws and nuts for each shelf, as shown in Figures 1 and 2. The shelves are identical and can be installed to any shelf support. Afterwards, rotate the unit vertical as shown in Figure 3.

Front and rear doors

Attach the front door of the unit using 12 screws and nuts, as shown in Figure 4. Attach the rear doors in the same manner, as shown in Figure 5.
